

Package unloading safety:

- No package of unusual shape to be placed down rollers. Package should be left in bulk truck to be team lifted.
- No package exceeding 60lbs is to be placed down roller. Package should be left in the bulk truck to be team lifted.

Equipment safety:

- All broken and defected rollers, handcarts, and other equipment should be reported to management immediately. Item should be red tagged and then removed from use.
- Any items with red tag are not for use. If the item has a yellow tag, please check with management before use. Green tagged items are the extra items that are available to be used. Please check in and sign out the item.

I have read and acknowledged all articles from handbook addendum 2.2.
